

## Portable Work Lamp

Need temporary lighting? The Honeywell Hobbs Portable Work Lamp is the answer. This heavy-duty work lamp provides light for any situation. Use it for work, to replace failed equipment lighting, light dark work areas, or service equipment. Use it for recreation—take it hunting, fishing or camping. Whatever the application, the Honeywell Hobbs Portable Work Lamp will provide years of reliable service. Simply plug the 15-foot cord into a 12 Vdc cigarette lighter receptacle, place the base with built-in 80 lb. magnet on a suitable metal surface, and get to work.

## FlexBase Warning Lamp

Here's the answer to those pesky tree branches or corn stalks. The Honeywell Hobbs FlexBase Warning Lamp will bend a full 90° when struck. This flex action deflects the impact, providing optimum protection to the lamp and the surface it's mounted on. The Honeywell Hobbs FlexBase Warning Lamp meets SAE J974 requirements for light output, and features high-impact polycarbonate lenses, aircraft-quality springs and cables, and an easily replaceable bulb. This lamp is made to replace fixed lamps on AG, industrial, and construction equipment.
